

EARLY CHILDHOOD EDUCATION, ASSOCIATE OF APPLIED SCIENCE

Program Description

The Early Childhood Education Associate of Applied Science Degree program prepares students to work with infants, toddlers, and preschool aged children in both public and private school settings. Students completing the ECE Associate of Applied Science degree will achieve Step 9 on the Oregon Registry Steps for the Oregon Center for Career Development in Childhood Care and Education.

Program Outcomes

Students who successfully complete the Associate of Applied Science degree in Early Childhood Development will be able to:

1. Create healthy, respectful, supportive and challenging learning environments for young children based on knowledge of child development in context
2. Create respectful, reciprocal family-teacher partnerships and community connections that support and empower families and involve all families in their student's development and learning
3. Develop and use effective and responsible assessment including observation, documentation and other appropriate tools in partnership with families and professional colleagues to promote positive outcomes for each child
4. Demonstrate an array of developmentally, culturally, and linguistically appropriate approaches, instructional strategies, and tools to connect with children and families and positively influence each child's development and learning
5. Apply and integrate academic content to design, implement and evaluate meaningful, challenging curriculum that promotes comprehensive developmental and learning outcomes for every young child
6. Demonstrate their professionalism as an early childhood educator with behavior reflective of ethical guidelines and professional practices associated with early childhood careers

Career Considerations

Graduates of the ECE AAS degree will learn specific skills and knowledge that are imperative in working with infants, toddlers, young children, and their families in a variety of early childhood education and care settings. These settings include both public and private infant toddler centers, preschools, private kindergartens, and in-home care settings.

The ECE AAS course work and practical work experience focuses on obtaining knowledge and understanding of the growth and development of young children, guidance skills, and curriculum planning that supports positive social/emotional, cognitive, mental, and physical development in children. Our ECE AAS degree program focuses on seven crucial learning outcomes to help prepare students for working with young children and their families.

Program Course Requirements

Course	Title	Credits
First Year		
First Term		
ECE 140	Intro to Early Childhood Ed	3
ECE 230	Health Safety and Nutrition	3
HDFS 225	Child Development	3
HDFS 228	Exceptional Child	3
WR 121Z	Composition I	4
Credits		16
Second Term		
ECE 101	ECE-Sem-Prac I	4
ECE 154	Lit and Language for Children	3
HDFS 226	Infant-Toddler Development	3
HDFS 240	Contemporary American Family	3
PSY 130	Understanding Child Behavior	3
Credits		16
Third Term		
ECE 102	ECE-Sem-Prac II	4
ECE 150	Creative Activities for Child	3
ECE 178	Observing-Guiding Behavior	3
ECE 244	Indiv Learning-Preschoolers	3
MTH 060	Intro to Algebra (or higher)	4
Credits		17
Second Year		
First Term		
HDFS 201	Ind-Family Development	3
MUS 202	Intro to Music and Its Lit II (Or other Music class)	3
PSY 201	General Psychology I	4
